### **COVID-19 Vaccine Clinic for January 27th Full and Waitlist Paused**

FOND DU LAC, WI – Public Health received an overwhelming response for the COVID-19 vaccination clinic for adults age 65 and older that was announced yesterday, January 19.

Due to the large amount of interest among this population, Fond du Lac County Health Department has met capacity for the clinic on January 27, 2021.

If you do not receive a call back by the end of this week, you will be placed on a waitlist for future clinics. We ask for your patience in this process. At this time, we are no longer adding to the callback list for future vaccine clinics.

The details of future clinics are not available at this time due to unknown vaccine availability. Vaccine availability at the local level is determined on a weekly basis through a state and federal allocation process.

Primary care providers may be an avenue to get vaccinated. Please visit your health care provider's website for details on how they will share information with you about vaccine availability.

Fond du Lac County Health Department, in collaboration with other public health partners, continues planning for safe and efficient vaccine distributions efforts.

For more information on vaccines, testing, and county statistics, please visit the Fond du Lac County Health Department COVID-19 page at [www.fdlco.wi.gov](http://www.fdlco.wi.gov) or [Wisconsin Department of Health Services](http://www.wisconsin.gov/health) website. For general COVID-19 questions, call 2-1-1 or text COVID-19 to 211-211.
